

YALUZINC®

ACIDO IALURONICO E ZINCO IN GOCCE
HYALURONIC ACID AND ZINC DROPS

Hyaluronic Acid and Zinc drops
50 ml Bottle

YALUZINC[®]

ACIDO IALURONICO E ZINCO IN GOCCE HYALURONIC ACID AND ZINC DROPS

Zinc and **Hyaluronic Acid** food supplement, useful for the normal physiological function of bones, skin, and connective tissues.

This unique formulation brings you the beneficial properties of the two components:

Improves the normal function of bones, skin, and connective tissue

Promotes proper cell replication

Decreases oxidative stress in the body

Adjuvant action in inflammatory states

Hyaluronic acid is a fundamental molecule for the trophism of connective tissue. This component preserves the structure of the skin and gives it elasticity, compactness, as well as that barrier function against external insults.

Hyaluronic acid combines well with Zinc, which is essential for correct cell replication, protection from oxidative stress, and for the synthesis of DNA and proteins.

Also, **Zinc** contributes to skin trophism as an adjuvant in the repair of tissue wounds, as an adjuvant in inflammatory states, and as a very useful molecule for the well-being of the immune system.

Average contents	Per daily dose of 35 drops	% NRV*
Zinc	5 mg	50
Hyaluronic acid	24 mg	

*Daily Nutrient Reference Value
(adults) EU Reg. No. 1169/2011

Ingredients:

Water, zinc gluconate, sodium hyaluronate, acidifier: citric acid, preservatives: potassium sorbate and sodium benzoate.

How to use:

Take 35 drops a day.
